

Disposable, Lightweight, High Energy Power Source

More Power: Our Lithium-based power system operates video and film equipment in harsh, remote conditions. The only alternative when you can't recharge. Compact and lightweight, the **Expedition Battery**® gives you more mobility while occupying less space. Up to eight times more energy produced compared to a NiCad of the same weight. The **Expedition Battery** outperforms any other battery under frigid conditions. This power source guarantees confidence!

Proven Effective: From the South Pole to the Persian Gulf and the summit of Mount Everest, powering Cameras, DAT Recorders, Sat Phones, GPS, Laptop Computers, Radios, Power Drills... Take along the experience of the **Expedition Battery** on your next adventure. Refined and proven by over fifteen years of rough service in the field.

7.5 Volt

Model Li-77 3 cells, 60 W/hrs

For DVC, Hi-8 Cameras and some DAT Recorders. 2 amp (15 watt) loads.

Sony, Panasonic, Canon, JVC Interface Adapters are supported by modification of the manufacturers' DC cables. 12 oz., Molex 2-pin, 4.2 x 2.5 x 1.4 inches.

7.5 Volt

Model Li-77 Linear, 3 cells, 60W/hrs

A special-order version of the Li-77 used in tight places—Gates Underwater Housing, etc. Same specs as Li-77. 12 oz., 6.9 x 1.4 inches.

800-472-2248

13 Volt

Model Li-125 5 cells, 100 W/hrs

For 16mm, Betacam, lighting, general uses. 17 oz., Molex 3-pin, 6.5 x 2.5 x 1.4 inches.

13 Volt/26 Volt

Dual Li-125, 13/26 10 cells, 200 W/hrs

(2 Models) For 16mm, Betacam, lighting, general uses. 33 oz., Molex 3-pin, or 4-pin, 6.5 x 5 x 1.4 inches.

16 Volt

Model Li-126 6 cells, 120 W/hrs

For Hi-speed Aaton16, Betacam and some 35mm Film Cameras. 21 oz., Molex 3-pin, 8.0 x 2.5 x 1.4 inches.

16 Volt/32Volt

Dual Li-126, 16/32 12 cells, 240 W/hrs

(2 Models) For Hi-speed Aaton, Arri435, Betacam and some 35mm Film Cameras. 40 oz., Molex 3-pin or 4-pin, 8.0 x 4.5 x 1.4 inches.

800-GRABBIT

13 Volt

Model Li-90 10 cells, 200 W/hrs

(special order) For 16mm, Betacam, lighting, general uses. 33 oz., BP-90 type plug, 6.5 x 5 x 1.5 inches.

NO LONGER AVAILABLE
REPLACED BY Li-13/26
